Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Catalogue of the Types Figured Specimens: In the Geological Department During his work of arranging the Palaeontological collections of the Museum, Mr. Bolton has noted the various type fossils as they presented themselves for consideration, and lists of these have been forwarded to Mr. A. Smith Woodward, the Secretary of the British Association Committee, for their registration. When the meeting of the Museums Association was about to be held in Manchester in July, 1892, I suggested to Mr. Bolton that a list of the types and figured specimens, as complete as he could compile, would be an appropriate communication to that Society. The present Catalogue is the result of his labours in that direction. References have been given to the more important papers treating of the species under consideration, and in almost every case these have been verified by consulting the original sources. The descriptions of two forms - Cyclus Scotti and Myriolepis Hibernica - were drawn up for this Catalogue, but have been published in the Geological Magazine whilst it was in the press. The Museum is much indebted to Dr. H. Woodward, F.R.S., and Dr. R. H. Traquair, F.R.S., for their kindness in communicating the respective descriptions and drawings. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
