paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Pages Number: 278 Publisher: University Press Pub. Date :2007-2-1. This book is divided into upper and lower two. Book contains articles on the theory of mechanics - statics in part (the basic concepts of statics and stress analysis of objects. graphic planes converging system of forces and couple system. the general plane force system. space force of friction). mechanics of materials chapter - The first part (the basic mechanics of materials concepts. axial tension. compression and shear. the geometric properties of plane figures. torsion. bending forces. bending stress. deformation. stress state and strength theory. combined deformation. struts and stability). the next book contains articles of theoretical mechanics - kinematics and dynamics (point kinematics. rigid body's basic movement. the synthesis of movement points. the plane rigid body motion. the basic equation of particle dynamics. momentum. angular momentum theorem. the kinetic energy theorem. Alembert principle. the vibration of single degree of freedom system). mechanics of materials chapter - Part II (alternating stress. strain. electrical measurement theory. energy methods. statically indeterminate system. dynamic load). This book is derived from simple theory. highlighting the engineering applications. the appropriate lower starting point. focusing on implementing simple. practical principles. In order to facilitate teaching and to help readers grasp key and difficult to ascertain. at the beginning of each chapter there are teaching tips. teaching requirements. at the end of a summary. along with an appropriate amount of exercises and answers to facilitate self-study. This book can serve as the professional colleges of engineering textbooks. but also used for other professional and social readers. Contents: Theoretical Mechanics article - part of kinematics and dynamics of the kinematics of Chapter 1. point 1.1 vector method -...
