Brand New Book ***** Print on Demand *****.School shootings, terrorism, and gang violence seem to be the recipe for the modern world. How do you protect yourself against the constant threat of crime that we face each day? This book gives you the latest research on both why crime occurs and who the people are who commit crime. By understanding both, you have the ability to develop a plan to protect your home and yourself. This book teaches the basic physical and psychological methods you can use to prevent crime from happening and how to avoid locations that lead to illegal activity. Rather than becoming a statistic, it is your responsibility to become a guardian of any environment you enter, decreasing the odds that a crime can even occur. You will prepare for the stresses you will deal with when confronted by a violent assailant and how to overcome them. You will master the simple, direct techniques that you can rely on to overcome the most aggressive opponent with confidence even without years of training. The book covers how to use the principles of Routine Activities Theory, Rational Choice Theory, Broken Windows, The Crime Analyst Triangle, Situation Crime Prevention, and Environmental Design to stop crime before it occurs.
