Charles Darwin's On the Origin of Species: A Graphic Adaptation

By Keller, Michael. Fuller, Nicolle Rager, Illustrator.

Rodale. 1 Cloth(s), 2009. hard. Book Condition: New. Few books have been as controversial or as historically significant as Charles Darwin's 1859 book On the Origin of Species by Means of Natural Selection. Science writer Michael Keller and illustrator Nicolle Rager Fuller introduce readers 12 to adult to this seminal text in the form of illustrations captioned and annotated with passages from Darwin's biological studies, his research, and his conclusions. Here too are episodes from the book's reception, Darwin's correspondence, and recent breakthroughs in evolutionary science."The first part of this book gives the background and context in which Darwin developed his theory of natural selection. Arriving home in 1836 after five years of exploration aboard the Beagle, he is asked to explain what he learned. Thus the structure of this graphic novel is established. Through his voice, readers learn about his discoveries and observations, his correspondence with other scientists who helped him formulate his theories, as well as his personal life. The second section highlights the salient points of the original On the Origin of Species. Excerpts from it are included in almost every frame, carefully selected to illuminate the argument. They are differentiated by a gray background while dialogue...
