Brand New Book ***** Print on Demand *****.Excerpt from Muscle Spasm and Degeneration in Intrathoracic Inflammations: Their Importance as Diagnostic Aids and Their Influence in Producing and Altering the Well Established Physical Signs, Also a Consideration of Their Part in the Causation of Changes in the Bony Thorax The material in this monograph is, with a few changes, the same as that which appeared in Brauer s Beitrage zur Tuberkulose, Band XXII, Heft 1, 1912. It represents original observations made by the author during the past three years. The observations and practical suggestions here recorded are based on several thousand physical examinations. They have been carefully tested and checked by other methods of diagnosis. The author gives them to the medical profession in this form at the earnest solicitation of many of his colleagues, hoping that they may prove of value in furthering diagnosis, especially of intrathoracic diseases; and particularly hoping that the appreciation of the early changes in the muscles covering the apex and in the diaphragm may aid in the early diagnosis of tuberculosis. Should the practical suggestions herein made fail to...
