By North Carolina Station

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 226 pages. Dimensions: 9.7in. x 7.4in. x 0.5in.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1885 edition. Excerpt: . . . are kept, and all the work of compiling the data received from the various observers goes on. Connected with the office, too, is a complete observing station, ranking first-class in all of its appointments. Self-recording instruments, maximum and minimum thermometers, anemometer, wet and dry bulb thermometer, are conveniently located on the summit of the roof. Two standard barometers ure in use in the office, and a standard rain gauge is located in rear, of the building at the surface of the ground. On the roof is a 36-foot Mag-staff, upon which are displayed daily signal flags giving the weather indications. Tri-daily observations are taken at 7 A. M. , 3 p. M. , and 10 p. M. , which are transmitted by telegraphic cipher to Washington, where they are used in the preparation of a daily weather map of the United States, and for...
