Each subject has been taken, all the available facts regarding it have been ascertained, the writer s own experience has been collated, and with the data thus gathered the chapters have been written. The labor involved in such a task has been very great, but I am encouraged to believe that the result will be a useful one; for the work does not compare or compete with the large treatises which are already in the field nor with the smaller introductory textbooks. I have tried to furnish a book which will be suitable for the student and practitioner and not valueless to the specialist. The extreme importance of a knowledge of anatomy has led me to pay especial attention to furnishing in a condensed form the most recent accessions to our knowledge of this subject. Starting with the facts that can be gained in ordinary anatomical works, the student can, I believe, acquire a good idea of modern neuro-anatomy with the help of the anatomical chapters given here. In the classification of nervous diseases and the description of their pathology, I have tried to apply the modern knowledge of general pathology as modified by bacteriology. This I have done conservatively, yet not less than in my opinion is absolutely demanded. A good deal of havoc will be wrought eventually in our conception of the nature of nervous diseases by the newer pathological doctrines;...
