Control Systems with Saturating Inputs (Paperback)

By Maria Letizia Corradini, Andrea Cristofaro, Fabio Giannoni

Springer London Ltd, United Kingdom, 2012. Paperback. Book Condition: New. 2012. 229 x 152 mm. Language: English . Brand New Book. Saturation nonlinearities are ubiquitous in engineering systems: every physical actuator or sensor is subject to saturation owing to its maximum and minimum limits. Input saturation is an operating condition that is well known to the control community for its side effects , which cause conventional controllers to lose their closed-loop performance as well as control authority in stabilization. Therefore, the practical application of control theory cannot avoid taking into account saturation nonlinearities in actuators, explicitly dealing with constraints in control design.
