Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Of the 23 deaths specified in Collier s two were cases of deliberate suicide, in each of which the victim left a note to his wife, telling her of his intention and explaining his reason for taking his own life. One killed himself with a pistol, the other with morphine. Collier s never admitted the truth of this, though the statement is incontrovertible. There is good reason to believe, but no positive proof, that two others of the 3 committed suicide. Two deaths were due to ptomaine poisoning and in two other cases death occurred while the patients were under the care of a physician. Certainly there is nothing strange or mysterious about these deaths! One died from an overdose of laudanum prescribed by a physician. One died of Bright s diesase and diabetes, one from apoplexy, and one from convulsions, the cause of which was never ascertained. In five cases diligent search failed to show that the persons named ever died, ---or ever lived, either, for that matter, --or that any death certificate was filed in any one of these five cases, or any burial permit issued for any person of the name given at or about the date given, at the place named. One or two of these cases are typical of the rest and will serve as a fair sample of the general worthlessness of the statements of Collier s Weekly upon such sujects. Take, for...
